ABOUT THE PROGRAM: In Beginner's Crochet, kids in grades 2-6 with no experience required will get to learn the basics of how to crochet! This includes the use of proper materials such as yarn and hooks and understanding necessary stitches. Each child also has the opportunity to bring home a creation of their very own. Come join us in the fun and see how this hobby encourages relaxation, as well as gives students a sense of accomplishment.

Avery Padula, lead instructor, has a bachelor's of the arts from SUNY Geneseo and has worked with kids for the past 6 years in various areas of study. She is "extremely excited to see crafters of all ages learn a new way to see and create art!"
